LOAN LIMITS

The eligible maximum amount borrowed cannot exceed the lesser of 1). 100% of the actual vested account balance, if less than \$10,000 or 2). 50% of his or her total vested account balances (that is 100% of employee deferrals plus 100% of all vested employer contributions or 3). \$50,000. The maximum eligible amount available for loans will be determined upon the current account balances determined under the daily valuation system.

When a member requests either the full amount of \$50,000 or close to the limit we must consider the highest loan balance 365 days back and subtract that balance from the amount that is eligible to be borrowed. We do not take into consideration if the loans are paid or still outstanding. This then reduces the amount available to be borrowed. The loan cannot exceed 59 months in duration; this includes any and all consolidations (i.e. when a loan is consolidated with another loan the duration of the loan cannot exceed the first loan's origination date).

MBA will only process loans based upon the balances within the MBA plan.

I hereby certify that I am aware _____ (employee/former employee name) is applying for _____ (insert amount from page 1 of this loan application) and he/she will not exceed the legal retirement loan limits when combining all loans in all plans that we, the employer, maintain or have maintained at any time since January 1, 2005. I also certify that the employee meets all other eligibility requirements as outlined above.
